

Contents

Volume 63 (1992)

M. Seras, R-M. Handjani-Vila, M. Ollivon and S. Lesieur (Châtenay-Malabry and Rungis Cedex, France), <i>Kinetic aspects of the solubilization of non-ionic monoalkyl amphiphile-cholesterol vesicles by octylglucoside</i>	1
O. Zschörnig, K. Arnold, W. Richter and S. Ohki (Buffalo, NY; Leipzig and Jena, Germany), <i>Dextran sulfate-dependent fusion of liposomes containing cationic stearylamine</i>	15
T. Bakos, J. Horváth and I. Vincze (Dóm tér and Gyömrői út, Hungary), <i>Steroids, XLVII: A facile synthesis of 3β-hydroxy-5α-cholest-8(14)-en-15-one</i>	23
P. Mésini, L. Lebeau, P. Oudet, C. Mioskowski (Illkirch and Strasbourg Cedex, France), <i>Monolayer study of a new class of synthetic amino-etherlipids</i>	27
P.-F. Wang and R.-L. Zheng (Gansu, People's Republic of China), <i>Inhibitions of the autoxidation of linoleic acid by flavonoids in micelles</i>	37
T. Itoneda and B.L. Beaman (São Paulo, Brasil; Davis, CA), <i>Molecular weight determination of methyl esters of mycolic acids using thermospray mass spectrometry</i>	41
B.R. Ratna, S. Baral-Tosh, B. Kahn, J.M. Schnur and A.S. Rudolph (Washington, DC; Gainesville, FL and Fort Washington, MD), <i>Effect of alcohol chain length on tubule formation in 1,2-bis(10,12-tricosadiynoyl)-sn-glycero-3-phosphocholine</i>	47
Q.-T. Li and W.H. Sawyer (Singapore, Singapore; Parkville, Australia), <i>Effect of ionic strength on the transfer of 1-pyrenemethyl-3β-hydroxy-22,23-bisnor-5-cholesterol between bilayer vesicles containing phosphatidylserine</i>	55
M.S.F. Lie Ken Jie, Y.K. Cheung, S.H. Chau, W.W. Christie and E.Y. Brechany (Hong Kong, Hong Kong; Ayr, UK), <i>Mass spectra of the picolinyl ester derivatives of some conjugated diacetylenic fatty acids</i>	65
K. Fukuzawa, W. Ikebata, A. Shibata, I. Kumadaki, T. Sakanaka and S. Urano (Tokushima, Osaka, Tokyo, Japan), <i>Location and dynamics of α-tocopherol in model phospholipid membranes with different charges</i>	69
A.U. Siddiqui, W.K. Wilson, K.E. Ruecker, F.D. Pinkerton and G.J. Schroepfer, Jr. (Houston, TX), <i>Inhibitors of sterol synthesis. Chemical syntheses and spectral properties of 26-oxygenated derivatives of 3β-hydroxy-5α-cholest-8(14)-en-15-one and their effects on 3-hydroxy-3-methylglutaryl coenzyme A reductase activity in CHO-K1 cells</i>	77
J.E. Baatz, K.L. Smyth, J.A. Whitsett, C. Baxter and D.R. Absolom (Charleston, SC; Cincinnati, OH and Columbus, OH), <i>Structure and functions of a dimeric form of surfactant protein SP-C: a Fourier transform infrared and surfactometry study</i>	91
D. Bach, E. Wachtel, N. Borochoy, G. Senisterra and R.M. Epand (Rehovot, Israel; Hamilton, Ontario), <i>Phase behaviour of heteroacid phosphatidylserines and cholesterol</i>	105
A.U. Siddiqui, W.K. Wilson, S. Swaminathan and G.J. Schroepfer, Jr. (Houston, TX), <i>Efficient preparation of steroidal 5,7-dienes of high purity</i>	115
M. Tomoaia-Cotisel, E. Chifu, J. Zsako, A. Mocanu, P.J. Quinn and M. Kates (Marburg/Lahn, Germany; Buffalo, NY; Cluj-Napoca, Romania; London, UK and Ottawa, Ontario), <i>Monolayer properties of archaeol and caldarchaeol polar lipids of a methanogenic archaeobacterium, Methanospirillum hungatei, at the air/water interface</i>	131
M. Khalique Ahmed, C.T. Choma and P.T.T. Wong (Ottawa, Ontario), <i>High pressure FTIR study of interaction of melittin with dimyristoylphosphatidyl glycerol bilayers</i>	139

Short Communication

G. Arsequell, G. Fabriás, L. Gosalbo and F. Camps (Barcelona, Spain), <i>Synthesis of inhibitors of a delta-11 desaturase in the moth Spodoptera littoralis</i>	149
G. Pifat, J. Brnjas-Kraljević, G. Jürgens, C.M. Herak-Kramberger and J.N. Herak (Zagreb, Croatia; Graz, Austria), <i>Chemical modification of low-density lipoprotein enhances the number of binding sites for divalent cations</i>	159
B. Azize, A. Cao, E. Hantz-Brachet, G. Perret, G. Lewin and E. Taillandier (Bobigny and Chatenay-Malabry, France), <i>Thermal behavior and elastic properties of phospholipid bilayers under the effect of a synthetic flavonoid derivative, LEW-10</i>	169
P. Allevi, M. Anastasia, P. Ciuffreda, A.M. Sanvito and A. Scala (Milan, Italy), <i>A simple one pot synthesis of aromatic steroidal and non-steroidal C-glucosides via O-glucosides</i>	179
A. Singh, M.A. Markowitz and Li-I Tsao (Washington, DC), <i>Modulation of bilayer structures derived from diacetylenic phosphocholines containing oxygen linker β to diacetylene</i>	191
T. Inoue, T. Tasaka and R. Shimozaawa (Fukuoka, Japan), <i>Miscibility of binary phospholipid mixtures under hydrated and unhydrated conditions. I. Phosphatidic acids with different acyl chain length</i>	203
M. Hein, A. Post and H.-J. Galla (Münster, Germany), <i>Implications of a non-lamellar lipid phase for the tight junction stability. Part I: Influence of basic amino acids, pH and protamine on the bilayer-hexagonal II phase behaviour of PS-containing PE membranes</i>	213
M. Hein, C. Madefessel, B. Haag, K. Teichmann, A. Post and H.-J. Galla (Münster, Germany), <i>Implications of a non-lamellar lipid phase for the tight junction stability. Part II: Reversible modulation of transepithelial resistance in high and low resistance MDCK-cells by basic amino acids, Ca^{2+}, protamine and protons</i>	223
M.A. Krajewski-Bertrand, A. Milon and M.A. Hartmann (Strasbourg, France), <i>Deuterium-NMR investigation of plant sterol effects on soybean phosphatidylcholine acyl chain ordering</i>	235
T. Inoue, I. Motoda, N. Hiramatsu, M. Suzuki and K. Sato (Fukuoka, Amagasaki and Higashi-Hiroshima, Japan), <i>Phase behavior of binary mixtures of cis-monounsaturated fatty acids with different ω-chain length</i>	243
P.K.J. Kinnunen (Helsinki, Finland), <i>Fusion of lipid bilayers: a model involving mechanistic connection to H_{II} phase forming lipids</i>	251

Short Communications

S.C. Cunnane, B. Descomps, S.C.R. Williams, P.R. Haycock, Z-Y. Chen and F. Mendy (Toronto, Canada; Montpellier and Paris, France; London, UK), <i>Carbon-specific detection of ^2H enrichment in long chain fatty acids by ^{13}C-NMR: potential application to studies of fatty acid metabolism</i>	259
I. Hermosín, F. Ledl and A. Gómez-Sánchez (Stuttgart, Germany and Sevilla, Spain), <i>Influence of oxidized lipids on the non-enzymic browning reaction: interaction between linolenic acid and an Amadori compound</i>	265
